CONSPIRACY TO RESTRAIN TRADE
(15 U.S.C. § 1)

MAG. JUDGE JAMES R. KNEPP II

The United States of America charges that:

I.

DEFENDANT AND CO-CONSPIRATORS

1. TOYODA GOSEI CO., LTD., is hereby made a Defendant on the charge contained in Count One.

2. TOYODA GOSEI CO., LTD. ("the defendant") is a corporation organized and existing under the laws of Japan, with its principal place of business in Aichi, Japan, and U.S. subsidiaries in various locations, including Troy, Michigan. During the period covered by Count One, the defendant was engaged in the business of manufacturing and selling certain automotive hoses (as defined in Paragraph 6 below, hereinafter "Certain Automotive Hoses") to Toyota Motor Corporation and certain of its subsidiaries, affiliates, and suppliers (collectively, "Toyota") in the United States and elsewhere.

ORIGINAL

3. Another corporation and other individuals, not made defendants in this Count, participated as co-conspirators in the offense charged in this Count and performed acts and made statements in furtherance of it.

4. Whenever in this Count reference is made to any act, deed or transaction of any corporation, the allegation means that the corporation engaged in the act, deed, or transaction by or through its officers, directors, agents, employees, or other representatives while they were actively engaged in the management, direction, control, or transaction of its business or affairs.

II.

BACKGROUND

5. During the period covered by this Count, the defendant and its co-conspirators supplied Certain Automotive Hoses to Toyota for installation in vehicles manufactured and sold in the United States. During the period covered by this Count, the defendant and its co-conspirators manufactured Certain Automotive Hoses in the United States for installation in vehicles manufactured and sold in the United States.

6. Certain Automotive Hoses consist of low-pressure rubber hoses used in automobile engine compartments, and plastic and resin tubes used in automobile engine compartments and fuel tank modules. Certain Automotive Hoses are typically manufactured for specific automobiles, and are developed over a year in advance of an automobile model entering the market. Before ordering Certain Automotive Hoses for a new automobile model, automobile manufacturers typically requested pricing from suppliers, through requests for quotation (“RFQs”). In response to the RFQs, the suppliers submitted price quotes, or bids, to the automobile manufacturer. When a supplier received part orders for a particular automobile

model, it typically supplied the parts for the duration of that model, which is usually four to six years.

III.

The combination and conspiracy engaged in by the defendant and its co-conspirators was in unreasonable restraint of interstate trade and commerce in violation of Section 1 of the Sherman Act (15 U.S.C. § 1).

8.
